

Apathy

Martin Nash, © All Rights Reserved 2021

Verse:

The polar caps are melting
The forests are ablaze
War is always raging
Is there another way
In a drought there is no rain
Crops wither on the vine
What we take for granted
Now memories trapped in time

Pre-Chorus:

Places are now flooding
Where it didn't flood before
Praying that you can afford
To rebuild once more

Chorus:

Apathy might it be
Lack of interest or concern
That inhibits you and me
From lessons we might learn
One thing to consider is
Because it seems to me
We can't even help ourselves
While stuck in apathy

Verse:

Everyone is busy
Living lives of their own
But no man is an island
And no one stands alone
We are all just travelers
Sharing this space in time
We pretend and tell our selves
Out of site is out of mind

Pre Chorus:

It's not a sign of weakness
To extend your hand
We're all in this together
Building castles in the sand

Chorus:

Apathy might it be
lack of interest or concern
Will we let it all slip away
Past the point of no return
One thing to consider is
Because it seems to me
We can't even help ourselves
While stuck in apathy

Verse:

If we're not concerned about
This world we call our home
One day we may look to find
Our address is unknown
I was never too concerned
With historic memory
Thought that was just the past
And then it came for me

Chorus:

Apathy might it be
lack of interest or concern
But where do we go from here
When the bridges have all burned
One thing to consider is
Because it seems to me
We can't even help ourselves
While stuck in apathy
